

Aztec Group has supported Inflexion with £1bn double fundraise

We're delighted to announce that we've supported Inflexion Private Equity Partners with the launch of Inflexion Enterprise Fund V and Inflexion Supplemental Fund V, which have secured commitments at their hard cap of £400 million and £600 million respectively.

Focused on the UK lower mid-market, Inflexion Enterprise Fund V will make investments of £10 million to £35 million in established businesses. Inflexion Supplemental Fund V will support the firm on larger investments, investing primarily alongside Inflexion Buyout Fund V, a £1.25 billion fund, and Inflexion Partnership Capital Fund II, a £1 billion fund, both of which were raised concurrently in 2018.

The Guernsey domiciled funds will invest across all sectors and each investee company will have access to Inflexion's extensive resources spanning digital enhancement, international expansion, acquisition support, operational improvement and talent management.

In addition to assisting with the set-up of the two private equity funds, we will provide a range of ongoing services from our Guernsey office, including administration, financial reporting and governance support.

Matt Horton, Head of Private Equity - Guernsey, said:

"Congratulations to Inflexion and all involved in another extremely successful fundraise. We are delighted to build on our excellent long-standing partnership with Inflexion and welcome the opportunity to reinforce our award-winning credentials in fund administration and the UK mid-market sector."

Recently named UK House of the Year and the Grand Prix House of the Year at the 2019 Private Equity Awards, Inflexion is a leading UK private equity manager, specialising in the UK mid-market sector. It has a portfolio of 42 companies, reaches 150 countries and employs more than 20,000 people.
