

Aztec Group Lunch & Learn: Waterfall calculations in practice

The distribution waterfall is the lynchpin of the private equity model. But how do waterfall calculations work in practice and why is this crucial mechanism so important?

Grab your lunch and join us for the first in our new Aztec Group Lunch & Learn webinar series; 'Waterfall calculations in practice', where Cara McErlane and Stephanie Gray will explain everything you need to know about waterfall calculations, providing insight into building the right foundations for success, a typical cash flow movement and challenges that could be faced. This one hour CPD session will include examples of waterfalls in action and will offer an opportunity to have your questions answered.

Time: 12:00 PM - 1:00 PM BST

A day in the life of a fund administrator

Behind every successful fund manager is an effective fund administrator. We lift the lid on the world of fund administration, providing insight into core responsibilities, key stakeholders involved in the establishment and ongoing administration of a fund and provide an example of a typical day (if there ever is one!)
