

Aztec Group supports Oquendo Capital on final closing of Senior Debt Fund

We've supported Madrid-based private debt specialist, Oquendo Capital with the final close of Oquendo Senior Debt.

Oquendo Senior Debt Fund made its final closing in December 2020, exceeding its hard cap size. It is focused on the fast-moving consumer goods, healthcare and pharmaceutical sectors, which have proven resilient throughout the Covid-19 pandemic.

Having been a trusted partner of Oquendo since 2016, we will provide ongoing administration, depositary, reporting and investor services to the fund from our office in Luxembourg, in addition to supporting the operations of four other Oquendo funds.

Nikita Fontanov, Aztec Group Senior Client Relationship Manager, said: "Congratulations to Oquendo on another extremely successful fundraise. For the fund to significantly exceed its expected total commitments despite the challenges posed by Covid-19 reflects confidence in Oquendo's successful investment strategy and its strong track record in the market. Having worked closely with the Oquendo team for the last five years, we're delighted to have been given the opportunity to support with the establishment of this fund and look forward to continuing to build on our strong working relationship."

Spanish private debt fund manager, Oquendo Capital was founded in 2007 and provides preferred equity and debt instruments targeted at family owned businesses and financial investors that require funds for acquisitions, growth and shareholder reorganisations.
