

We are speaking at the 2nd Annual CFO/COO Private Equity Conference New York

We're delighted to be attending LPGP Connect's 2nd Annual CFO/COO Private Equity conference in New York, taking place on 28 September 2022.

The event brings together CFOs, COOs, Finance Directors, Operations, Compliance, Risk Professionals and C-Level executives working within the global private equity industry. This year's event will focus on the latest issues global equity fund managers are facing as they look to deliver operational excellence to stay ahead of the competition.

Ore Adegbotolu, Business Development Director, will be moderating a session called 'COO strategic initiatives: moving the back office toward operational efficiency,' in which the panel will discuss how to manage growth and scale while establishing processes that meet LP demand.

At the event, which takes place at the New York Hilton Midtown, Ore will be joined by colleagues from our US office, Lynne Westbrook, Michael Wood, as well as Matt Horton - our Global Head of Private Equity.

If you would like to set up a meeting at the event, please contact Ore via ore.adeobotolu@aztecgroup.co.uk.
