

We have been crowned ‘Fund Administrator of the Year’ for the seventh time!

We are delighted to announce that the Aztec Group has won the ‘Fund Administrator of the Year’ award for the seventh time at the Unquote British Private Equity Awards, breaking their record for the most awards ever won by a single firm!

Designed to recognise excellence across all UK-based administrators serving private equity houses, the awards were judged by a panel comprised of reputable industry thought leaders.

Following the news of our latest win, our Group Head of Private Equity Alan Ross commented:

“We are absolutely thrilled to have won the ‘Fund Administrator of the Year’

award once again! To win such a prestigious award seven times out of eight nominations is remarkable, and a huge testament to our people and the high level of client service they deliver each and every day.”

After being shortlisted by the judges alongside other fund services providers, it was down to a public vote to determine who had set the standard for exceptional client service over the last year.

The overall winner was determined by combining the results of the judges votes with those of the public, with the weighting split equally between the two.

Alan continued:

“We have had another great year in terms of winning new business – growing our revenue figures and assets under administration without compromising our enviable client and staff retention rates. We very much look forward to the future as we continue to invest in our people and processes, and ultimately deliver superior service to our clients.”

Now with over 750 employees (and counting) operating across six jurisdictions, the Aztec Group is one of the world’s largest independent providers of fund, corporate and depositary services.
