

Aztec Group celebrates 10 years as Jersey's leading fund administrator

Aztec Group has once again secured its position as the leading fund administrator and transfer agent in Jersey, according to the newly released Monterey Insight Jersey Fund Report 2025.

The findings mark the tenth consecutive year in which Aztec has held the largest market share of assets serviced in the jurisdiction.

The independent report shows that total assets serviced in Jersey rose by 7% to US\$676.8bn as at 30 June 2025. Private equity and venture capital funds remain the driving force behind this growth, accounting for the majority of new sub-funds and asset expansion.

Aztec Group's market-leading position is reinforced across multiple categories:

- Leading fund administrator for the tenth year running, servicing US\$258.2bn in assets.
- Leading transfer agent, with US\$247.5bn in assets.

[Simon King](#), Head of Jersey at Aztec Group, said: "To be recognised as Jersey's leading fund administrator and transfer agent for the tenth consecutive year is a milestone we're incredibly proud of. Over that time we've watched our clients' businesses evolve significantly, growing in scale, expanding into new markets and managing increasingly complex structures.

"What they expect from their service providers has evolved too. Clients today want faster access to data, greater transparency and systems that help them operate more efficiently, but they also place real value on partners who genuinely understand their business, respond quickly when it matters and act as an extension of their team.

"This recognition reflects the expertise and commitment of our people, as well as the continued trust of our clients. Jersey continues to evolve as a leading international funds jurisdiction, and we're proud to play our part in supporting

that growth.”

The report also highlights continued growth across Jersey’s private markets industry, with private equity and venture capital assets rising to US\$501.6bn, an 8% increase year on year. Sub-fund numbers in the asset class also grew by 9%, further cementing Jersey’s reputation as a leading global hub for private capital structures.

Recent client activity in Jersey continues this momentum, including [Aztec’s support of Global Healthcare Opportunities on the successful €2.5 billion close of GHO Fund IV.](#)
