Edward Moore, Aztec Group Founder and CEO, commented: "It is fantastic to see so many promotions across our business. Our fundamental principles of caring for our employees and putting our clients at the centre of everything we do has served us well as the world has grappled with the effects of the pandemic. These well deserved promotions are testament to the extraordinary grit, resilience and passion of our people in the toughest of circumstances, and underline our commitment to invest in our business today and in the future."

"We take great pride in creating an environment that empowers everyone to reach their full potential, with clear goals for progression and plenty of opportunities to build their knowledge and gain new skills. I'd like to personally thank each and every one of them and congratulate them on this next stage of their careers here at Aztec."

The promotions follow another great year of organic growth for the Group, attracting significant new business across all of our locations and opening our first US office earlier this year. Located in Philadelphia, the office is our first outside of Europe, and further enhances our service proposition for existing clients while meeting continued demand for our services internationally.
