

Charlotte Light moderating tech panel at Invest Europe CFO Forum 2021

On Friday 11 June, our Chief Technology Officer, Charlotte Light will be moderating a panel at the Invest Europe CFO Forum, discussing how technology is shaping the future of fund operations.

The annual forum, which will take place online, is a leading event for CFOs, COOs and senior finance and fund operations executives.

Charlotte will be joined by Katja Baur, CFO at Montana Capital Partners, Andreas Rizos, CFO at Golding Capital Partners and Conference Chair, Ed Lee of Proskauer.

The panel will discuss how technology is responding to evolving investor demands, where AI and automation can enhance fund operations and the future and practicalities of implementing technological change.

In her role as Chief Technology Officer, Charlotte drives the continued development of our technology transformation agenda, enhancing both our client and employee experiences. She has a wealth of experience leading technology teams in multiple industries, most recently spending four years at Channel 4, prior to joining the Aztec Group in 2021.

We have a number of representatives who look forward to connecting with you. If you would like to set up a meeting, please contact [James Duffield](#) or [Danielle Carpenter](#).
