

We're exhibiting at the PEI CFO COO Forum 2022

We're proud to be exhibiting at the Private Equity International (PEI) CFO COO Forum: Europe 2022, on 15 - 16 November.

Taking place in London, the CFO COO Forum is a leading event in the private markets calendar, and a great opportunity to hear from leading industry heavyweights and influential figures across the alternatives market.

James Duffield, Head of Business Development, will moderate the 'Preparation for SFDR & EU taxonomy: dealing with client demand' panel session at the forum, where he'll be joined by Maida Lillemets from BaltCap and Amandeep Johal from Triton Partners.

The two-day event will bring together expert speakers who will discuss themes including ESG and SFDR integration, private markets movements and cyber threats within private funds.

A number of Aztec Group representatives will be attending the conference. If you'd like to set up a meeting, please contact James Duffield on James.Duffield@aztecgroup.co.uk
